

Inspire Trust Alternatives Common Trust Fund

Investment Objective

The Fund seeks to generate returns that are independent of broad market direction by investing in alternative strategies and public equities. It aims to provide low correlation to the Standard & Poor's 500 Index and the Bloomberg U.S. Aggregate Bond Index, while managing risk and enhancing diversification. The Fund has exposures to high quality fund managers and publicly traded private asset managers.

Investment Guidelines and Restrictions

- The fund will generally invest in a mix of alternative, equity, and fixed income products, with no single position exceeding 20% of the fund.
- Invests in alternative strategies across the following sub-categories: Hedged Equity, Arbitrage, Managed Futures, Opportunistic Fixed Income, and Multi-Strategy. It will also invest in publicly traded Private Asset Managers. The fund will invest in strategies that have a strong track record versus peers and in Private Asset Managers that are expected to grow earnings over time.
- The fund may invest across domestic and international markets and across the market-capitalization spectrum, utilizing both alternative products and public equities.
- Daily liquidity with the use of publicly traded investments.

Asset Class Exposures

Definitions

- **Hedged Equity:** Aims to generate returns in both rising and falling markets by taking long and short positions.
- **Private Asset Managers:** Firms that raise capital to invest in, and actively manage, privately held companies in order to create value for investors.
- **Arbitrage:** Profits from the price discrepancy, or spread, between two stocks.
- **Managed Futures:** Uses futures and forwards to take long and short positions across various asset classes such as currencies, commodities, equities, and fixed income to benefit from the moves in both up and down markets.
- **Opportunistic Fixed Income:** An unconstrained bond strategy that seeks to actively identify mispriced securities across the global fixed income market.
- **Multi-Strategy:** Can utilize a variety of investment strategies and asset classes to generate returns and reduce risk, while also lowering the correlation to the overall market (e.g. options, long/short, macro, event driven, relative value).
